Email-id: [Udaish.95@gmail.com](mailto:Udaish.95@gmail.com)

## EDUCATION:

Bachelor of Engineering: **Instrumentation** | **University of Mumbai** | Mumbai, India

Coursework: Process Automation • Biomedical Instrumentation • Business Communication

## WORK EXPERIENCE:

### **Deloitte USI | SAP Analyst | Gurgaon, India**

**Aug 2021 – till now**

- More than 3 years of working experience as SAP functional analyst in Sales and Distribution area.
- Good understanding of SD integration with other modules such as MM and FI.
- Worked as SAP SD functional analyst for clients such as Johnson & Johnson, Siemens etc.
- Being a functional analyst allowed me to collaborate with stakeholders to understand business requirements. Configure SAP SD module & provide end-user training & support.
- Hands on S/4 HANA implementation or support experience in SAP, with at least 1 end-to-end SAP projects covering Sales & Distribution module.
- Analyze reported incidents by the clients and provide a resolution within agreed SLA.

### **Halliburton | Associate Technical Professional | Mumbai, India**

**Jan 2019 – Nov 2020**

- Executed & handled SharePoint functions that allows for storage, retrieval, searching, archiving, tracking, management, and reporting on electronic documents and records. Many of the functions in this product are designed around various legal, information management, and process requirements in organizations.
- Got the opportunity to briefly explore SAP SD & MM Module. Also worked as a data engineer to handle documentation related operations.
- Worked for clients such as Reliance Industries & ONGC.

## Co-curricular Activities:

- Co-Ordinator at International Society of Automation (ISA) 2014 -2015 under which we conducted various technical events.
- Member of International Society of Automation (ISA).
- Certified course done under Automation Industry Association (AIA).
- Process control instrumentation & Expert in piping components of oil & gas industry certified course completed under Udemy.
