✔ Summary

Results-driven data scientist with more than two year of hands-on experience in extracting actionable insights from diverse datasets. Proficient in statistical analysis, machine learning, and data visualization techniques. Demonstrated ability to leverage Python, R, and SQL to drive informed decision-making and optimize processes. Passionate about harnessing the power of data to solve complex problems and drive business growth.

✔ Experience

- **Insights Opinion**   02/2024 -
  Data Research Analyst
  Conducted comprehensive data collection from various sources, including databases, surveys, and APIs. Utilized advanced statistical methods and software tools to analyze large datasets and extract meaningful insights.

  Developed visually compelling dashboards and reports using tools like Tableau and Power BI to communicate complex data findings effectively to stakeholders and decision-makers.

  Applied predictive modeling techniques such as regression analysis and machine learning algorithms to forecast trends, identify patterns, and optimize business processes.

  Actively participated in professional development opportunities to stay updated with the latest trends and technologies in data analytics and research methodologies.

- **-CloudyML**   04/2023 - 10/2023
  Analyst
  Build AI tools that automate the processes.
  Worked on different machine learning algorithms.

- **Exotic Learning**   09/2022 - 01/2023
  Data Trainee
  Worked to manage the regional business development activities.
  Conducted market research, developed business strategies, build client relationships, and identify new business opportunities.
  Worked to solve the queries of clients.

- **Blue Nile Inc**   08/2021 - 08/2022
  Trainee
  Worked on different platforms for data cleansing.
  Created visualizations such as beautiful dashboards or graphs that can be use to track progress toward goals.
  Worked to extract and manage the data into useful insights for business development activities.

✔ **Education**

- **Aligarh Muslim University, Aligarh**   2018-21
  MCA

- **Aligarh Muslim University, Aligarh**   2015-18
  B.sc (Hons) Mathematics

✔ **Skills**

- Project Management
- Problem Solving
- Analytical Skills
- Data Extraction
- Python
- MySQL
- Data Visualization tools.
- Machine Learning
- Deep Learning
- MsExcel

✔ **Projects**

- **Data Cleaning System**

  Successfully worked on the Data Cleaning System that help to remove or correct inaccurate, corrupt, or improperly formatted data and delete duplication within a dataset

- **Hall Co Curricular Activities Management System**

  Build a robust web development system to manage and coordinate the Co Curricular Activities organize in halls.

- **Movie Recommendation System**

  Build a robust system with ML based approach to filter or predict the users' film preferences based on their past choices and behavior.

✔ **Achievements & Awards**

- Successfully completed the Data Science and Analytics Program organized by Coursera .
- Participated and completed FDP Program on Data Science conducted by All India Council for Technical Education.
- Participated and successfully completed the Networking Program conducted by Coursera
- Cracked the IBPS PO Exam

✔ **Activities**

- Volunteer at Students Organization. Organiser of Annual Hall Cultural Fest. Taught python , Progmming and data visualization tools on edtech platforms.

✔ **Languages**

- English
- Hindi
- Urdu
